STUDENTS PARLIAMENT ELECTION ON 24-28 NOV '03 : YOUR CHANCE TO MAKE IMPORTANT DECISIONS!

OUR BACKGROUND: POLITICAL INDEPENDENT AND MULTICULTURAL

The "Demokratische Internationale Liste" is a political independent group at the University of Münster. Our aim is to give fresh ideas for a better together among different cultures at our university and to improve study conditions. Last year we could gain almost 3% of the votes and one seat in the students parliament for a policy from stu-

dents for students. What makes us different from other political lists is our multicultural origin. Most of our members are committed in different institutions to more tolerance and better study conditions like the foreign students representation (ASV), in societies, in the students parliament, in representations of their subjects, in initiatives and in science.

GLOBAL UNIVERSITY: DIVERSITY INSTEAD OF MONOTONY!

- No discrimination and racism at university
- "Intercultural Competence" as obligatory part of the studies
- Support of the foreign students representation (ASV) to build up a capable and competent institution at university.
- Support participation of foreign and German students in university policy
- Improvement of living and working conditions of foreign students (at the moment: restricted working conditions)
- Save the AStA subsidy for foreign students in economic urgent situations
- Enhanced support of international exchange as practical part of the studies

PAY MORE, STUDY LESS? WITHOUT US!

- No hidden study fees for anybody :
Save the subsidies by the state for the "Studentenwerk" (consequences of reduction: higher semester fees, higher meal prices in the "Mensa", higher rents for apartments of the "Studentenwerk")
- Protection of confidence for students on an advanced study level:
chance to finish studies without paying long time-study fees
- Support of the legal examination of the "Studienkontengesetz" (law of study accounts)
- No extra fees for delayed payment of the semester subscription
- Intensive advice of students during the change to bachelor and master degrees
- Better equipment for the university libraries
(Higher fees for delayed return of books since beginning of 2003)
